

Discovering Research in a European Context

9 - 13 MARCH 2026

Online

16 - 20 MARCH 2026

On site - Valenciennes, France

3
ECTS CREDITS

Co-funded by
the European Union

Research tools | Methodology | International
collaborations | Career opportunities in research

This Blended Intensive Programme (BIP) is designed to inspire and empower master's students to engage with research early in their academic journey, regardless of their disciplinary background.

Gain fresh perspectives on research methods, communication, societal impact, and European collaboration - and unlock your potential as a future researcher!

Module 1	●	Research for dummies: the fundamentals of scientific inquiry
Module 2	●	Beyond the Lab: How Research Shapes Society, Careers, and Diversity
Module 3	●	EU Research Unlocked: Funding, Mobility & Strategic Connections
Module 4	●	From Lab to Limelight: How to Present, Design & Publish Your Research
